In addition, a Kaleo is required to take that person's possessions off-site to wash at your expense, and another Kaleo is expected to wash the person's hair. Modesty Policy/Dress Code for Campers and Kaleos

Athletics are a large part of our Camp program. At KAA, we are aware that modern athletic apparel is designed to create the least amount of resistance for an athlete's optimal performance. Although sports are a large part of our program, our desire to minister to the heart is even larger. Our bodies are a gift from God. We do not want that gift to be a distraction. The policy concerning apparel is designed to create the least amount of resistance to ministry for optimal, spiritual growth. What we gain in not causing our brother/sister to stumble is far more than what we lose in not being able to wear the clothing we may prefer individually. We wholeheartedly want to thank you in advance for adhering to our Modesty Policy.

Clothing Modesty:

1. Daily attire for Campers/Kaleos consists of athletic wear (t-shirts, shorts, athletic shoes).

* Males are always required to wear shirts unless they are in an all-male class. Shirts are worn any place where females may be present.

* Do not wear low cut tops that show cleavage, do not wear crop tops or shirts that show midriff, have suggestive or inappropriate writing or designs across the chest area.

* Do not wear thin undershirt tank tops as outer wear. Only athletic sport tank tops are to be worn. No spaghetti straps are to be worn and no midriffs showing even when the arms are raised.

* Inappropriate or suggestive slogans/designs are NOT to be worn on clothing or hats.

* No tight clothing such as jeans/pants, shorts or shirts are to be worn at any time.

* Short shorts are not allowed. If your bottom shows at any point while wearing the shorts, they are too short! There is at least a 3-inch inseam and shorts are evaluated according to the finger-length rule (hemline is not shorter than your middle finger when your arms are by your sides).

* No leggings are worn without shorts worn on top. Pants, including sweatpants and shorts with writing on the rear are not allowed.

* Skirts and dresses of any length are not permitted.

* Kaleos may wear casual clothing at night, which reflects the same modesty guidelines described within our policies.

2. Modest one-piece swimsuits are to be worn- No 2-piece swimsuits please!!! No high cut-legs, no bikinis or tan-kinis, no low backs, and no cut-outs, see through swimwear or speedos. (Girls should not wear Lycra swimsuits all day because of potential yeast infections.) Swimsuit approval is subject to the director's discretion. Ladies must wear shorts and shirts over their swimsuits when not at a water activity.

3. No underwear is to be shown either through the clothing or by sagging/low riding clothes. Bras are worn all day. Bras are not to be visible through any shirt or tank top. No white Cool Max/Dri Fit type shirts are allowed.

4. Absolute personal modesty is observed while inside the cabin. Nudity is unacceptable unless you are dressing or undressing in an appropriate and timely manner.

a. Sleeping in the nude or walking around in a partially or fully undressed state is not allowed.

b. Towels are worn going to and from showers. Disrobing takes place at the last possible minute before and after showers while dressing.

5. Athletic shoes and socks are always worn during the day.

a. To reduce the instance of injuries, flip-flops or similar sandals can be worn to and from showers but never outside the cabin.

b. Tevas and Chacos that have a strap around the ankle can be worn throughout the day at your own risk.

6. Ladies may wear a maximum of 2 stud earrings in their ears only, a purity ring and Camp jewelry.

a. Kaleos may wear wedding rings, small stud earrings (ladies only) and a sports watch.

b. Body piercing, outside of a small stud nose ring, must be removed, plugged or covered prior to Camp.

Modesty Policy/Dress Code continued

± As part of our modesty policy, we never joke about, exemplify, comment on, emphasize, or otherwise call attention to sexual body parts or address sensitive subjects in a manner directed toward any person. This is not appropriate and is considered overt sexual abuse.

± KAA reserves the right to update this policy at any time. Please contact us at 417-266-4000 with any questions regarding attire.

The FAQ'S about Lice

Q: How do you get head lice?

A: Head lice is passed through close personal contact with another person who has lice. This happens by using shared combs, brushes, and other hair grooming aids; sharing hats, caps, wigs, coats, or through co-mingling these items. A common misconception is that lice are only on people who are unclean. In the case of head lice, this is **NOT TRUE**. Frequent bathing will neither prevent lice nor eliminate them.

Q: What should you look for:

A: Head lice are long insects about this (--) long and are grayish white with dark margins. Lice do not have wings and cannot fly. **They do not jump** but do move very quickly. This makes it difficult to find in a child's hair. They are difficult to see and usually the diagnosis of head lice is frequently made when nits, the egg from which lice hatch and spread, are seen. Nits are teardrop in shape, about this size (') and are yellowish-brown to white in color. The lice attach each nit to a strand of hair with a glue-like substance. The glue makes it impossible to wash or brush out the nits as we do with dandruff. Sometimes they are clustered together and are easy to find but usually they are spread throughout the scalp, so a careful examination of all the hair is necessary.

Q: How do I treat lice?

A: Treatment of head lice involves not only the person, but also, all the person's personal articles: caps, combs, brushes, towels, bedding, and clothing. (see the lice treatment instructions below)

When Campers come to Kids Across America with head lice, they are treated before returning to activities and cabin areas. This involves treating the whole cabin and everyone's clothes, bedding, and personal articles. The Camper misses out on a lot of great fun because he/she is in the Health Center to have hair washed and combed out, etc. We want to make sure every Camper gets to experience camp at its fullest. PLEASE have parents check their children for head lice several days before camp, so that if they do have lice, treatment can be started and completed before the child leaves for camp. **THIS IS OF GREAT IMPORTANCE AND WE ASK THAT YOU GIVE YOUR ATTENTION TO THIS CONCERN!**

Treatment of Head Lice

HAIR:

The hair must be washed with NIX or similar shampoo. Nits are very difficult to remove. Comb hair while still wet using a fine-tooth comb, rinsing with equal parts vinegar and water, or trimming and thinning the hair. All family members and close friends should also be examined and treated if lice are found. Family who shares a bed with the child should be treated whether lice has been found or not.

CLOTHING, PERSONAL ARTICLES AND ENVIRONMENT:

Since heat kills lice and their nits, many personal articles can be disinfected by machine washing in HOT water and then using the HOT cycle of the dryer. Nits are killed in 5 minutes at 125 degrees (F) and crawling forms are killed at slightly lower temperatures. Home hot water heaters usually keep water this hot. If a dryer is used, dry articles for at least 20 minutes at the HIGH heat setting.

Machine wash all washable clothing and bed linens that have come in contact with the child within the previous 3 days.

Personal clothing or bedding that cannot be washed or dried may be dry-cleaned or left in a plastic bag and sealed for 10 days.

Soaking combs, brushes, and similar items in an insecticide liquid, made for lice, for 1 hour, can disinfect them or you may soak them in a pan of water heated on the stove for 5-10 minutes (BE CAREFUL not to get the water boiling: heat may damage some combs and brushes.) To break the cycle of new lice being hatched, spray Li-Ban R & D, or other lice sprays on objects, like mattresses, that cannot be washed or dry cleaned.

After treatment is completed, you must re-check your child! They must be free of all lice and nits before coming to camp! If you bring a child to camp with head lice, you are required to cover the expense for the treatment! The expense is a \$50 fee for each Camper we treat for lice due to infestation brought by your Camper to camp.

Just DON'T Do It!

KAA Registration is delighted to work with our attendees to establish a registration process which allows our registrants the opportunity to plan ahead. 1 Corinthians 14:40 (KJV) states “Let all things be done decently and in order.” In accordance with this teaching, we ask that you refrain from the following actions.

Don't:

- bring campers or Kaleos who have not been approved by the Registration Manager.
- go to someone other than the Registration Manager to discuss an exception. This is one of the greatest causes of confusion and results in additional fees on your account if our guidelines are not followed.
- wait until the last minute to
 - o tell us pertinent information about a group member. (health issues, correct age, etc.)
 - o register late and expect the same grace on fees and information as extended to those who registered in advance
- bring a group member into camp without signing in with Registration or receiving health checks from our health team on Opening Day
- bring a group member who is out of compliance with our Eligibility Restrictions.
ex. A person with sickle cell or who is pregnant cannot attend Kids Across America Camps
- falsify information (see the policy agreement for specific fees)
- skip verifying your spaces the Thursday before you arrive
- send us a list to verify your spaces other than the Registration list from your account (groups only)
